

Nanotechnology in Vaccine Delivery

All webinars will be held 11 AM - 12:00 PM EDT

May 5 - "Localization of mRNA-based Vaccines in Non-Human Primates - A Multi-Modality Approach"

Prof. Philip Santangelo
Dept. of Biomedical Engineering, Georgia Tech

May 12 - "mRNA Vaccines and COVID-19 – The Start of a New Era of Vaccinology"

Prof. Evan Anderson
Vaccine Research Clinic, Emory School of Medicine

May 19 - "Virus-Like Particle Approaches to Coronavirus Diagnostics and Vaccines - an Update"

Prof. M.G. Finn
School of Chemistry & Biochemistry, Georgia Tech

May 26 - "Lipid Nanoparticles for *In Vivo* mRNA Delivery"

Dr. Kalina Paunovska
Dept. of Biomedical Engineering, Georgia Tech
